6 PLY RIVERSI

WHY

(A nationally advertised 4 ply tire) WHEN YOU GET

THIS 6 ply RIVERSIDE

For SAME MONEY

6 full plies from bead to bead

Riverside Tires now at

lowest prices in history!

Think of this—the BEST tires we have ever sold! The LOWEST prices in our history! The GREATEST tire values we have ever offered! That's what Ward's offer

A genuine full 6 ply Riverside for the usual price of other 4 ply tires. A FULL 6 ply Riverside at the lowest price at which any heavy duty 6 ply tire has ever been sold. And 6 full plies (sometimes referred to as "8 plies winder the rread") mean more strength, more

NALUE:
Riveraides are one of the oldest and most famous makes of tires in America. They have been sold for 20 years. Millions are in use today—on all makes of cars, on all sorts of roads, in all kinds of weather. Riveraides are made by one of the largust tive companies in the world. They are of the highest quality it is possible to produce. They are built so the most exacting set of specifications in the tire industry. They are bucked by the strongest guarantee ever written.

#### The Ohio "Rag Baby."

#### BY J. H. GALBRAITH

By J. H. GALBRAITH
Though the term "Rug Baby" was used in reducile of the position of advocates of paper money and opponents of the proposition to resume specie payments in the middle seventies, the term was first used by Governor William Allen binnelf in a speech made at Toledo on September 12, 1875, Allen being then one of the three leading advocates of the money in this section of the country—the others being Gam Cary, also of Ohio, and William D. Kelly, of Penn ylvania.

Sam Cary, also of Ohio, and William D. Kelly, of Penn ylvania.

After trying to show that it was the government's stamp on it that gave money logal tender value, whether it was on paper, silver, gold or dry other metal, Governor Alien turned to fight the pending proposition to resume specie payments which was to become a fact four years later, with utterances that sound strangely like those of William Jennings Blyan many years later.

"What do you mean by that?" he asked. "Do you mean that all the existing debts of the country—thousands of millions of them—all of them contracted upon a basis depreciated filten costs on the dollar, are to be paid on a certain day by a specie bearing standard? If you mean that, you simply mean an impossibility come specie payment when it may. I pronounce it an absolute impossibility for such an act to have extraped. an act to have retrospect effect, and act upor an act to have tetrospect effect, and act upon contracts proviously made. All preexisting contracts must be paid in the currency in which they were contracted. If the people who have borrowed at the rate of eighty-five conts on the dollar are compelled to repay at 100 cents, it will break up every man in the coun-try." The debtor classes flocked to Allen's try, ii standard.

There was some question about the position There was some question about the position of his nephew, Allen G. Thurman, in 1806, as to free silver. His son, Allen W. Thurman, was strong for Mr. Buyan's view of it, but the "Old Roman" never spoke for it. While his uncle, Governor Allen, was making these strong arguments for the "Rag Baby" in currency. Mr. Thurman wrote a letter in which he said: "I shall not abate one jot or tittle of my, hard money dectrine."
